INNOVATIONS

1. **Removable basket interlocks with inlet:** prevents solids from escaping basket.
2. **UNI-FIT™:** basket inserts in one orientation.
3. **All-perforated basket:** basket perforations are more than 17 times inlet opening, creating easy flow in the presence of solids, and limiting the chance for a backup.
4. **Optional low outlet:** if used, it allows for a temporary water surge (acts as a reservoir), as well as keeps basket dry during maintenance.
5. **Movable trap:** sewer gas trap can be field-installed on high or low outlet.
