

# THE AARDVARK™

## BASKET-STYLE SOLIDS INTERCEPTOR

**PRODUCT  
UPGRADE**

Field-extendable  
PVC basket handle.

Field adjustable cover  
adapter up to 5".  
Risers available for  
deeper burials.

U-shaped perforated  
basket makes solids  
removal easy.

Robust polyethylene  
tank for above-  
or below-grade  
installation.

Lid and handle are  
removable to make  
top of basket  
entirely open during  
maintenance.

Molded-in high and  
low outlet option.  
Preferred outlet is cut  
in the field.

(AA-3 shown)

Basket lid and  
extendable PVC  
handle are fully  
removable for  
basket maintenance.

Basket can only be  
inserted inside unit in  
correct orientation.
