

Assembly Manager

Location: Kansas City, KS

Area: Production

Reports to: Production Manager

Manages: 7-10 direct reports

Job Description

We are seeking an individual to oversee our fabrication team. This role will ensure quality, safety, and product build processes are being followed daily. This person will help train new fabricators, and coach existing fabricators. They are expected to receive ideas from their team and execute on those that will improve performance and enhance safety.

Responsibilities

- Assist Production Manager in executing LEAN manufacturing initiatives
- Ensure that
 - expectations for quality are met by each fabricator
 - efficiency and workplace expectations are met by each fabricator
 - organization and cleanliness expectations are met by each fabricator
 - all product SOPs are followed as written, by each fabricator
 - the Striem Philosophy is upheld by each fabricator
- Complete ad hoc production initiatives as needed
- Earn your team's trust
- Maintain a clean and organized work environment

Qualifications

- Ability to stay calm and flexible in emergency scenarios
- Ability to accept constructive criticism
- Excellent communication skills
- Demand excellence from your team
- Extremely high attention to detail
- Ability to lift 75 lbs.
- Proficient with Microsoft products
- Computer skills necessary
- Sense of humor

Area

The Workshop is where products get built. But it's more than that, it's a hands-on atmosphere that can generate new product ideas and new processes. It's ground zero for the industry's only lifetime guaranteed oil separators, solids interceptors, and chemical waste tanks.

About Striem

Striem manufactures oil separators, solids interceptors, and chemical waste tanks. That's it. Focus is our friend. Our goal is simple: be the industry leader in all three categories. We'd like you to join us.
