

THE AARDVARK™

BASKET-STYLE SOLIDS INTERCEPTOR

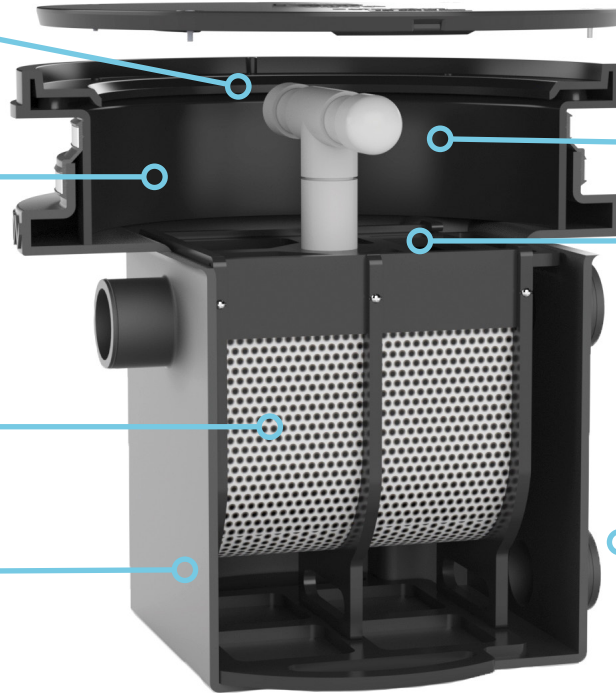

**PRODUCT
UPGRADE**

Field-extendable
PVC basket handle.

Field adjustable cover
adapter up to 5".
Risers available for
deeper burials.

U-shaped perforated
basket makes solids
removal easy.

Robust polyethylene
tank for above-
or below-grade
installation.

Lid and handle are
removable to make
top of basket
entirely open during
maintenance.

Molded-in high and
low outlet option.
Preferred outlet is cut
in the field.

(AA-3 shown)

Basket lid and
extendable PVC handle
are fully removable for
basket maintenance.

Basket can only be
inserted inside unit in
correct orientation.

THE AARDVARK™

BASKET-STYLE SOLIDS INTERCEPTOR

SAME TANK & BASKET WITH FOUR CONNECTION SIZE OPTIONS:

Pedestrian-rated bolted composite cover standard. Traffic-rated covers available.

Initially launched in 2018 as a four tank lineup, The Aardvark has been refined and upgraded to a single-tank solution. This basket-style solids interceptor is designed for DIY maintenance in a wide array of applications. The basket has been upgraded for optimal performance and easier maintenance.
