CHEMICAL WASTE TANKS

APPLICATIONS:

LABS

(SCHOOL, HOSPITAL, & PHARMACEUTICAL)

(LB-275)

- Striem's Neutral Zone™ is our acid neutralization tank intended for installation under individual sinks, lab stations, and other point-of-use options. It is designed to bring low pH wastewater up to an acceptable level prior to discharge to the sanitary sewer system. Each unit comes with DepHender™, Magnesium Oxide Neutralization Media.
- Command Center™ pH Monitoring System available.
- Decontamination tanks for emergency wash down areas with optional liquid level monitoring.

(Neutral Zone™ & DepHender™ media)
